Managing Healthcare Costs

How can your company manage the skyrocketing cost of providing health care benefits to your employees? One of the answers is the Health Savings Account or HSA. Unfortunately, one of the biggest disappointments with the HSA's is the lack of employee participation in these accounts. Learn of ways to maximize enrollment in HSA's through employee wellness programs, ongoing communication and education.

Hot Topics In Immigration

If your Company were subject to an I-9 audit, would the I-9s pass muster? What should your Company be doing to ensure compliance with the new Social Security No-Match regulations?

Recruitment and Retention

What does my company have to do to find qualified employees and once they are hired, how do I get the good ones to stay?

Three local experts will be there to share their knowledge and expertise.

Steve DeSorbo, President of Coordinated Benefits Group has implemented a number of Health Savings Accounts and will share his success stories.

Melissa Dearing is an immigration expert and attorney with the labor and employment law firm, Coffman, Coleman, Andrews and Grogan. She will discuss I-9 compliance, as well as what you should do in the event that your Company receives a Social Security no-match letter.

Bob McKenzie, President of McKenzieHR, a local human resources management firm will provide some useful insight into recruiting and retaining the best talent for your organization.
